

SUMMER QUEST 2016

Welcome to Summer Quest, camp-wide STEAM based curriculum at Kensington!
What is STEAM? Science - Technology - Engineering - Art - Math
Summer Quest - asking questions and building thinkers through summer camp fun!

KENSINGTON JUNIOR CAMP PART-DAY (for two to five year-olds)

Junior Campers love Project Based Learning at Kensington! A "Project Portfolio" will come home every session, documenting each camper's investigations, observations and summer discoveries!

QUESTION

JUNIOR CAMP 2016 SESSIONS:

Session #1: (June 6-July 1) "THE EARTH PROJECT"

What is the Earth? Who lives there? What is on the outside surface of the Earth? What if we could open up our planet and look inside? What lives in the dirt? How do trees help the Earth? Where do flowers come from? How can we all work together to make the Earth feel good? What is gravity? Can rocks float?

Session #2: (July 5-July 29)(closed 7/4) "THE WATER PROJECT"

What do we know about water? Where do we see water? How do we use water? We drink it, wash our hands with it, take a bath in it and love to play in it! Where can we find water in nature - rain, snow, dew, frost, even a rainbow? How long will it take our puddle to shrink on a sunny day? How can we save water?

Session #3:(August 1-25) (closed 8/26) "THE SKY PROJECT"

What can we spy in the sky? What do we know about the sky? Why does it rain? Does rain make a sound? Why is the moon bright at night? What flies in the sky? How do planes stay in the sky? What makes a cloud? Can we catch the wind? Why does it thunder and lightening? What is stargazing?
