

Kensington Enrichment School

Session #5: March 2- April 17, 2020 (6 weeks)

Kensington Enrichment School offers optional classes in math, science, art, music, literacy and fine and gross motor development for three, four and five-year-olds.

Join us for more fun and learning in Session #5!

Enrollment Forms are due by Thursday, February 27th!

Imagination Exploration!

Class #1: "Under the Sea with You and Me!" (3s, 4s, 5s)

Come under the sea with you and me as we discover the many oceans of the world and the differences between land and sea! Salt water vs. fresh water experiments, seashell and fish studies, and making fizzy underwater discoveries with baking soda will all be a part of the fun and learning in this class. Literature will include The Pout Pout Fish by Deborah Diesen, Clark the Shark by Bruce Hale, and Froggie Goes to Hawaii by Jonathan London - much discussion and dramatic play will stem from these beachy reads! We'll also do the crab walk, design our own yarn fish, and make ocean wave art. Have your child join us for this playful "Under the Sea with You and Me" class full of literature, science, art and dramatic play!

Tinkerlab Workshops

Class #2: "The Big Picture" (for 4s and 5s)

Seeing the world through a child's eye can be very insightful! In this hands on enrichment class, we will be handing the cameras and iPads to the children and encouraging them to tell us their stories. The children will have the task of learning how a camera works and what it takes to take successful pictures. We will have a scavenger hunt to find different items to photograph. We will bring home pictures to show you of our hard work. Let us show you how we see the environment around us!

Physical Fitness

Class #3: “Wiggles and Giggles” (3s, 4s, 5s)

We'll enjoy the good times that physical activity can bring as we “wiggle and giggle” our way into a world of fun in this class! We will incorporate sports with strength training and coordination, agility, marching and balancing and more. Playing “Jump the River,” maneuvering through obstacle courses, taking turns at leading “Following the Leader,” and ending each class with parachute games will keep us moving. This fast-paced class is sure to release stored up energy in a positive way. Get your little one wiggling and giggling these upcoming spring months in this social movement class!

Mathematics

Class #4: “Spring Math Bags” (for 3s, 4s, 5s)

With a new twist on a favorite math class, this class adds a seasonal take to creating different games that encourage each child's mathematical understanding. From “Rainy Day” games to the number snake game, to clothespin addition and number matching, children will create their very own new math game each week. Numbers and counting and estimating have never been so much fun! In the last week, we will bring them home in our very own decorated “Math Bag!” Using our Spring Math Bags at home will be a great way to learn and practice our math skills with our family.

Early Literacy

Class #5: “Ready to Read”

(for 4s and 5s)

Readers emerge in this kindergarten readiness class! During the formative pre-kindergarten year, parents often wish to complement their child's pre-reading instruction. Addressing concepts of print in this small enrichment class is a great way to do this! Children will enjoy letter and sound games, incorporating skills such as rhyming, alliteration, phonological/phonemic awareness and practicing sight words. Whether it be for one enrichment session or every session through the year, this popular class will expand upon each child's foundation as an emerging reader!

Enrichment Class Schedule and Guidelines

(Session #5: March 2 - April 17, six weeks)

<u>Class Offerings</u>	<u>Ages</u>	<u>Day/Time</u>
Class #1 - Under the Sea	3s, 4s, 5s	Thursday/1:00-1:45
